The Stockholders in State Banks, and other corporations in Kentucky are now liable for double the amount of their stock to depositors, etc. This was decided in the Court of Appeals in the case of the Title Company, of Louisville, that the Stockholders must stand an assessment to meet the debts of the defunct corporations.

One of the big life insurance companies is going to put total abstinence in a special class of policy holders, and if their death rate proves less than in the class where drinking is permitted, a lower price for insurance will be made them. Temperance and virtue have their own reward, but a tip on the side from the insurance companies will not come amiss.

The U. S. government has over \$2,500,000 in the treasury of unclaimed money orders, which have accumulated since the post office department has been conducting a money order business. With every order they made special effort to effect payment to the payee or restore the amount to the remitter, and failing, can do nothing but keep the amount, always ready to pay it to either party having an interest in it.

The Judges of the United States Supreme Court still cling to the old-fashioned way of their predecessors. A box of snuff is always placed on the attorneys' tables for the benefit of those who smoke it, although few people snuff it except from curiosity. Every day the pages place new quill pens upon the desk of each judge. This has been done daily more than a hundred years since the court was first called to order.

The Supporters of Mr. Platt, having published an affidavit from about 40 reputable citizens, certifying that Platt carried the Cayce precinct convention fairly and squarely, now comes the support of nominee Ayers with about the same number making affidavit that Ayers carried the precinct. When good reputable democrats get to making out for and against each proposition, and the result is a shambles, it should be a dead affair, and an honest adjustment should be reached.

Because she was vaccinated and her husband did not know it, the marriage of Julia Prescott and Andrew Untill, both ly postponed. The two went to get a marriage license. The vaccination on Julia's arm was extremely sore, and she wore a shield. Andrew noticed the lump under the sleeve of her dress, but did not know what caused it, so being in a playful mood, owing to the prospect of the nuptials, he pinched it. She snatched Andrew with her pincushion until bystanders rescued him. Then they went away by different routes without having the license, and they will probably never need one.

## RAILWAY COMBINE

The Roads in Which Harriman, Morgan, the Vanderbilts and Hill Are Interested.

### WILL BE UNDER ONE MANAGEMENT.

J. C. Stubbs Will Be Traffic Expert, or Manager, for the Harriman Group of Roads.

Charles Miller, Second Vice President of the Great Northern, Will Occupy a Similar Position for the Hill Lines.

Chicago, June 18.—All the roads in the middle west and northwest in which E. H. Harriman, J. P. Morgan, the Vanderbilts and J. H. Hill are interested, hereafter will be practically under one management. J. C. Stubbs, now third vice president of the Southern Pacific, will be the traffic expert, or manager for the Harriman group of roads, while Charles Miller, second vice president of the Great Northern, will occupy a similar position for the Hill roads. Both probably will have offices in Chicago and will act in conjunction.

This is one result of the conference held in Chicago on Saturday between Mr. Harriman and various railroad men.

Mr. Stubbs will have full charge of all the traffic affairs of the Union Pacific, Southern Pacific, Oregon Short Line and Oregon Railway and Navigation Co. He will also have charge of the transcontinental traffic affairs of the Chicago & Northwestern, Chicago & Alton, Illinois Central, Milwaukee & St. Paul and one or two other lines that may come under Harriman's control.

Mr. Miller, who is one of President Hill's trusted lieutenants, will be in charge of the traffic expert of the Burlington, Great Northern and Northern Pacific roads, and to these may be added later on the Chicago Great Western, Wisconsin Central, Minneapolis & St. Louis and Iowa Central. Mr. Miller, it is understood, will also be made second vice president of the Burlington railroad.

Mr. Stubbs and Mr. Miller will act in unison on all transcontinental and competitive traffic matters.

### MAD MULLAH EXPEDITION.

The British, Under Col. Swayne, Decimated the Enemy, With a Loss of 200 Men.

London, June 18.—A dispatch to the foreign office from the colonial secretary of Somalia land says that the Mad Mullah expedition had very heavy fighting May 28.

The flying column of mounted infantry under Capt. Merewether struck the Mullah's supply camp during a night march and captured a herd of cattle, killed one important chief and captured another, covered 100 miles, fought a sharp action, and returned to its base all in 24 hours. The main force of the British, under Col. Swayne, departed for Eldia, June 2, leaving MacNeill, with 200 men, to guard Zaria. Swayne's column advanced against the Mullah's base. In the meantime the Mullah, with 200 followers, attacked Zaria three times. He was finally driven off by MacNeill with a loss of 300 men. The British in Zaria lost ten men killed and nine wounded. The Mullah is now cut off from his base and a decisive action is imminent.

In the melee preceding the arrival of the police Willie Cook, a young Negro, attacked a policeman with a pistol ball.

## TRAMPS' ESCAPE.

Most Remarkable Thing That Has Occurred in an Engineer's Twenty Years Experience.

John Smith, a well-known Illinois Central passenger engineer, relates a remarkable story about a man who found asleep on the ties of a railroad track a few nights ago.

Mr. Smith was bringing into Chicago the Fish special, occupied by President Stevenson, Fish and other officials of the road, returning from a general inspection of the line, when about a mile north of Ashkum, he saw dimly outlined some unknown object, apparently sitting on the rails. The engineer supposed it was a man, and at once applied the emergency brake, says the Chicago Tribune.

The engine had nearly passed the object when it started. Descending from the cab, Mr. Smith found a man soundly sleeping. He was sitting with his back to the rails and his feet to them that his head would have struck the side of the engine had he arisen.

The noise made by the approaching locomotive had not awakened the man, and he was not aware of his danger until he was roughly shaken by Mr. Smith.

"Let me alone, 'tain't time to get up," he protested, drowsily.

"Had the man talked like that to him when the engine approached he would have been killed."

It was the most remarkable thing that has occurred during the engineer's 25 years' experience.

Engineer Smith the next night ran over and killed an unknown object man at Chebanse, the second station from Ashkum. The colored man accidentally stepped in front of the locomotive.

### Help Wanted.

When we cannot find a man to need close at hand, we must carry our research farther afield, not must we be able to find an expert in any one of our fields. We are looking for a man who can be found, but not as yet. P. T. McGee, of Newton, Indiana, who writes: "One-half bottle of your Lotion has done me good. I had before tried 25 bottles of my ancles of nearly three years standing. Nothing I had before tried had benefited me. In what nearly town can I find it?" If your own druggist hasn't it, send at once to Solon Palmer, 224 Pearl St., New York, for samples of Palmer's Lotion and Lotion Soap.

"This reckless speculation must be stopped and the earnest citizen and the true magnate of the nation."

"Indeed it must," agreed the latter. "In fact, it must. Way, yesterday, three fellows who are not in our crowd at all made a mistake. They were taking flyers. That sort of thing won't do. We're taking action."

### A Broad Hint.

Mr. Stuyt—Aw Miss Dimple, you have had a dreamy day, haven't you? Miss Dimple—No, I'm just sleepy; that's all.—Ohio State Journal.

The more effusion a person puts into the thing he is doing, the more likely it is that he will do it well. The less likely it is that he will do it well. The less likely it is that he will do it well.

## Impressed Upon His Notice.

The various features for which the Lackawanna Railroad has become noted are invariably impressed upon the notice of the passenger, who realizes the luxury of hotel or club treatment in the electric lights; the smooth-running journals of the wheels; the extraordinary cleanliness made possible by the use of anti-rust compounds avoiding all dirt and rusting smoke; the consciousness of being always on time; with comfort and ease of mind and body, the passenger is impressed by the unsurpassed scenery through which its line passes. It is but the natural sequel that the Lackawanna is prosperous in like degree to its excellence of service, and its warm friends are equal in number to its whole list of patrons, for once to test its service makes an ardent admirer and friend earned for the road.—Van Kitten Brees.

Mr. W. S. WHEELER, Cashier of the First National Bank of Winchester, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the drug store and informed me that one dose cured him, and he is again at his work. For sale by Cowgill & Cowgill, druggists.

## R. W. BUCK'S CASE.

### How He Was Prosecuted and Persecuted

WORK HOUSE, MEMPHIS, June 17, '91  
Editor Courier:—

I know that you and several of my old friends will know that I am no thief. I may have been a drunkard and once would fight, but since I took up my cross and started to follow Jesus I am a Christian and have done everything that I said I did as a leader in the community. I am a boy you knew me and two things I always boasted that I hated in others, a thief and a liar. I am honest and I know it, and if I do suffer in Jesus' name I am glad I am worthy to suffer for him. They simply took a negro woman's word instead of mine. The people simply can't believe that such things do exist as lying on the hands of the cure the sick. You know this, and right here there are hundreds walking on the streets, cured by my influence. This persecution of the worst sort. I ask the prayer of my friends that they hold out faithful until the end. I am sorry tried and cast down, but I believe God will bring me through and bless my every effort. I certainly did lots of good and cured lots of people. They could do little here to see me and get not to work on them. A lady was here that they tried their very best to get her to prosecute me. She told me in my presence that the doctor wanted to cut her thumb off, and I saved her life, as she knows I cured her to where she is, and she came for me to treat her again after I got in jail. All good doctors here told me that she was cured. Oh, they do hate me and persecute me. I have cured several doctors and one swore in court that I cured him and that medicine would not. I expect to serve God while I live. I have not broken a law and I have the conscience of knowing it, God is with me. Pray for me.

Women suffering from Headache, Back-ache, Nervousness, Sleeplessness, Indigestion, Fainting, etc., will find it a precious blessing. Trial Satisfaction is guaranteed. Cowgill & Cowgill. Only 50c.

## PRESIDENTIAL TALK.

While there is considerable entertainment in a discussion of likely candidates for the Presidency in 1904, it must be confessed that at this early day little can be done in the direction of definitely indicating the leading competitors in either party. The next Presidential election is three years distant. A congressional election is to be held next year which may have a notable influence upon nominations. It may be seen at a glance therefore that the time is not yet at hand for the bringing out of Presidential aspirants. Beyond the pleasure of seeing their names in print as having been mentioned for the Presidency, the good is likely to accrue to the men who may be talked of in this connection at the present moment. The issues to be passed upon in the next presidential election must largely determine the choice of Presidential candidates. These issues are now shaping themselves. While there is some reason to believe that they are being fairly indicated even now, they have not yet taken their respective places in the order of their importance. They will not do so, in all probability, earlier than the congressional session of 1903.

## FOR JOY AND SORROW.

In Tyrod the mother of a female infant makes the first year of its life a beautiful life. After the marriage it is again laid away to be seen no more until death, when it is again produced and over her face in the coffin.

## Shot at Fulton.

There was a hot time at Knight's hotel last week and for a time it looked as though something would happen. Henry Knight, proprietor of the hotel, remonstrated with clerk John Melton for allowing A. J. Johnson and a strange woman to occupy the room. Melton refused to be ejected, and the argument grew hotter when Mrs. Knight took a shot at Melton, and he fled.

About this time Johnson, who is general agent of the McCormick Machine company, came in and said that if there was any fighting to be done, he was going to be in it. Then there was much excitement, in which Proprietor Knight came out victorious. —Mayfield Mirror.

## THE BOMB

Mineral Springs Hotel at West Baden, Ind., in Ashes.

There were several narrow escapes from death—entire loss of building and contents of the hotel—of the \$200,000.

West Baden, Ind., June 15.—Of the 365 persons who were in the Mineral Springs hotel fire here is now believed that every one escaped with his life.

During the excitement of the fire a report was sent out that many lives were lost, which, fortunately, proved to be incorrect.

The loss on the hotel building is estimated at \$200,000, with insurance aggregating \$100,000. In addition to this loss a few moments' delay in getting clothing belonging to the guests will, it is estimated, reach \$50,000.

The conflagration had its origin in the kitchen, which is located on the ground floor of the hotel immediately under two rows of sleeping rooms.

## IS CONVALESCING.

The Improvement in the Condition of Mrs. McKinley's Health Still Continues.

Washington, June 17.—The improvement in Mrs. McKinley's health continues, and Dr. Dixey said Sunday night on leaving the white house that he was satisfied with her condition. She sat up in her rolling chair during the day and chatted and laughed with the president and others. As night came on Mrs. McKinley again took to her bed, after passing a fairly comfortable day.

During the past three days the weather has been cloudy and rainy, and Sunday was particularly gloomy. This had a somewhat depressing effect on the patient, but with the return of good weather more satisfactory results are expected.

Sunday was a very quiet one at the white house. The president spent most of the day with his sick wife, Captain and Mrs. McKinley, and of Chicago, accompanied by his son, called during the evening, and others left their cards.

Word comes from Canton, O., that the improvements on the president's home there are about completed, and everything will be ready for occupancy by July 1. If Mrs. McKinley's condition permits her removal by that time, she will be taken to her Ohio home where it is believed the chances for permanent improvement will be greater than in Washington. Hope is expressed that she may be able to travel by the first of July if the present rate of progress toward recovery is maintained.

## A MINT IN MANILA.

Next Congress Will Be Asked to Open One for the Coining of Philippine Silver.

### ALSO TO ESTABLISH A SUBTREASURY.

The War Department Purposes to Establish a Sort of a Clearing House in That City.

Great Difficulty Encountered Among Officers and Others in Obtaining Money on United States Drafts and Checks.

Washington, June 18.—The war department is endeavoring to reach an arrangement with the treasury department which will avoid as far as possible the difficulties now encountered by army officers and civilian employees in the Philippines in obtaining money on United States drafts and checks. Gen. Bates, of the pay corps, after consulting the secretary of the treasury, will go to New York to see Assistant Treasurer Jordan about the matter. Under present conditions the checks drawn by army officers or civilian employees in the Philippines are not cashed in New York, unless the holder is known at the treasury. If the checks are sent through the clearing house they are paid. It is proposed to organize a sort of clearing house in Manila, by which all checks and drafts may be endorsed by the civil treasury, and the signature considered valid in New York. At present the chief paymaster in Manila keeps on hand from a million to a million and a half dollars in currency with a guard of soldiers. This money is stacked in a small room, and the paymaster is personally responsible for it. Commensurate with the quarters experience the same difficulty as paymasters, and while they do not keep as much cash on hand as the pay department, it is more currency than the officers are to be responsible for.

An official of the war department, who has given the question a great deal of study, says that the next congress will be asked to establish a subtreasury at Manila, and to open a mint there for the coining of Philippine silver.

### FIRE IN BUFFALO N. Y.

Two Elevators, One Large Flour Mill, Ticket Office and Part of a Dock Destroyed.

Buffalo, N. Y., June 18.—A fire, which started on the dock at the foot of Ferry street, on the Niagara river, at 3:30 o'clock Tuesday morning, destroyed two elevators, one large flour mill, the ticket office and a part of the dock of the International Ferry Co., which runs the ferry boats plying between Buffalo and the village of Fort Erie. The total loss will be in the neighborhood of \$200,000, divided as follows:

Frontier elevator, \$100,000; Ryan elevator, \$75,000; Queen city mill, \$100,000.

The fire was a hard one for the department to get at. The mills and docks are on a narrow strip of land forming a part of Squaw island. The wooden swing bridge connecting the mainland to the docks was destroyed soon after the fire was started. The fire tug was sent down the canal from the upper harbor, but everything within reach of the flames but the dock had been destroyed before the fireboat arrived.

Mormon Agent Asks For a Concession For Settling 1,000 Mormons Families in Sonora.

Mexico City, June 18.—A Mormon agent, James M. Cannon, is here for the purpose of securing from the government a concession for settling 1,000 Mormon families in Sonora, on the lands from which the Yaqui Indians have been driven. Mr. Cannon says:

"We believe that if suitable tracts of land are placed at our disposal in the Yaqui country we will do much for his country in the interest of peace, for the Mormon church has faced the Indian problem almost since its organization."

"We require no rifles in our management of the red brother, and are always insisting it into his mind that we are his friends and not his foes. If the concession is obtained a commissioner will be sent at once into the Yaqui territory by the Mormon church for the purpose of ascertaining the attitude of the Indians, and if peaceful, a contract will be made and lands purchased from the Yaquis."

### UNDER ARREST.

W. G. Campbell, of California, in the Toils in Cincinnati Charged With Huge Swindles.

Cincinnati, June 18.—W. Greer Campbell, a broker, of Los Angeles, Cal., is under arrest at Central station on the charge of being a fugitive from justice. He is being held until an officer can come and take him to Chicago, where it is charged that there are indictments against him for forgery and obtaining money under false pretenses.

The arrest was made Monday afternoon on complaint of Raymond R. Carey, an author, living in the city, on Mr. Ashura. He claims that Campbell swindled him out of \$150,000. Carey also claims that Campbell swindled several other persons out of \$200,000, and men like Phil Armour and Geo. Pullman were, according to Mr. Carey's story, made victims of Campbell.

All the money was obtained by Campbell, so it is charged by Carey, through a forged contract with the inventor of a patent to smelt ore by electricity.

### CHICAGO MACHINISTS.

Five More Plants Have Effectuated Settlements With the Men, Making Over 100 Firms in All.

Chicago, June 18.—Settlements with striking machinists were effected Monday with five plants of local unions, making a total of over 20 Chicago plants, in which the strikers have won the fight inaugurated through the general strike of three weeks ago. Under the terms of settlement the strikers returned to work Tuesday at all five shops, having been granted the nine-hour day without a cut in the rate of wages paid per hour under the ten-hour system recently abandoned.

All of the labor that Monday have memberships in the Chicago Machinery Manufacturers' association, two also being represented in the National Metal Trades association, the organization of employers in the foundry trades. Out of the original 100,000 involved, the local machinists' strike only 1,200 are now out of work.

## THREE DIPLOMATS.

E. B. Loomis Appointed as Minister to Portugal, Vice John M. Irving, Resigned.

### IT IS NOW IN ENGLAND ON LEAVE.

His Rank Will Be the Same as Minister to Venezuela, But His Salary Less.

Herman W. Bowman Has Been Selected as Minister to Venezuela and Lloyd C. Griscom Minister to Persia.

Washington, June 18.—The president Monday appointed the following changes in the diplomatic service: E. B. Loomis, minister to Venezuela, to be minister to Portugal, vice John M. Irving, resigned; Herman W. Bowman, minister to Persia, to be minister to Venezuela; Lloyd C. Griscom, first secretary of the legation at Constantinople, to be minister to Persia.

His transfer from Venezuela has a most creditable record in the consular and diplomatic service. He began United States consular at Barcelona in 1890, and was raised to the rank of consul general five years afterward. Mr. Bowman stuck to his post through the exciting days preceding the Spanish-American war as long as any American could have been safely on Spanish soil.

The conclusion of the war he was about to return to his old post but instead was appointed minister resident and consul general at Constantinople. Lloyd Griscom has had a short, but brilliant, career as first secretary of legation at Constantinople. He has discharged his full duties of a minister at that important post for several years, and the American mission claims have been successfully adjusted at last, a large part of the credit belongs to Mr. Griscom. He resides in his new capacity a salary of \$20,000 a year. He is a son of the president of the American steamship line company.

Lineberger, aged 72, was suffocated to death Monday while attempting to escape from a burning building at 129 West Mulberry street, and Robert Blissett, another old man, lies in the hospital so badly burned that his death is momentarily expected. ## FERRY BOAT SUNK.

The Northfield, Loaded With People, Rained by the Manich Chank, at New York.

New York, June 18.—The wooden sidewheeler, Northfield, which has been in the service of the Staten Island Ferry Co. for the past six years, was sunk by the Spanish ironclad, Manich Chank, used as a ferry boat by the Central railroad of New Jersey. The collision occurred just after the Staten Island ferry slip, at the foot of Whitehall street, and in less than 20 minutes afterwards the Northfield, which had 800 to 1,200, sank at the outer end of the Spanish line pier in the East river. The Manich Chank, which was badly damaged, landed two dozen passengers who were aboard of her. Over a hundred of the passengers of the sunken Northfield were dragged out of the water by people along shore and the crews of the fleet of tug boats, which promptly responded to the ferry boat's call for help. A few of the Northfield's passengers were hurt in the accident, and the police believe that some lives were lost.

Capt. Daniel Gully, of the tugboat Manich Chank, which was damaged, crash landed, says that immediately after the collision between 25 and 30 of the passengers leaped into the water, and that many of those perished. Capt. Gully also declares that he is sure over 100 of the Northfield's passengers were drowned. The captain of other tug boats who were early on the scene however are inclined to think that the disaster was not as serious in regard to loss of life. Thus far no dead bodies have been recovered.

While the Northfield was well supplied with life preservers, which were stowed in an out of the way place, not more than two dozen of the endangered passengers were able to get the life belts on.

### ON THE SAME GALLOWS.

Five Colored Men, Convicted of Murder, Hanged at New York, Ga., No Attempted Rescue.

Savannah, Ga., June 18.—The hanging of five men upon the same gallows at the same moment marked the end of what is thought to have been an organized gang of murderers here. The men executed were Arnold Augustus, Andrew Davis, Richard Sanders, Wm. Hudson and Sam Dabbi-wia, all Negroes. The victims of their crime were Constable Mears and William Harrison, whom they assaulted and shot to death, and Capt. Wade, whom they seriously wounded. The execution was strongly guarded, that an effort would be made by Negroes to effect the rescue of the condemned, but there was no disturbance, nor the suggestion of any. The hanging was in private, the stockade being surrounded by a strong cordon of troops.

## NEW AND GOOD RULING.

The supreme court has ruled that jurors are entitled to two dollars per day of twenty-four hours, or fraction thereof. It has been customary for judges to allow jurors an extra day's pay when they stay out all night in discussing a case. Under the ruling now made if they are out but ten minutes they get their day's pay, but if they consume the entire twenty-four hours they would get the same amount. It seems that ruling ought surely have some effect on hanging of jurors.

It is said that the same decision will allow only two dollars for an election day and night of twenty-four hours—not for two days as heretofore.

This is as it should be. Two dollars per day means 24 hours.—Mayfield Messenger.

## TO ALL PERSONS HAVING FARMING, TIMBERED OR MINERAL LANDS, ETC. FOR SALE.

The Nashville, Chattanooga & St. Louis Railway proposes to use its best efforts to induce a good class of immigrants to settle in territory contiguous to its lines, and to engage the attention of capitalist seeking Manufacturing Sites or Mining Property. It therefore solicits the support, the co-operation and the assistance of the people of every county through which its lines pass. The management earnestly requests that all persons who have farmed for sale or lease, those who have timbered lands, water power or mineral lands for sale, will send a brief description of same to the railroad agent nearest them giving prices and terms of sale. The prices must correspond with the prices asked of local buyers. The management does not propose to do in selling land to immigrants at exorbitant or speculative prices.

China should be excused for being just a trifle skeptical about the promise that "salvation is free."—Atlanta Journal.

There is a growing disposition among diplomats to let China settle down, and try to save up some money. Washington Star.

The Chinese did not want the indemnity made quite so large, but what can a timid man do who is looking down the barrel of a gun?

It is estimated that 1,000,000 Chinese lives have been lost through starvation or violent death about Peking and Tientsin, since the allied forces held out there. This sort of estimate is scarcely likely to make the "foreign devils" any more popular among the natives of Cathay.—Duluth Herald.

A good hail storm story comes from Mahlen, Mo., under date of Wednesday, as follows: "A violent hail storm is reported from the hills seven miles west of here this evening. It is said that the wagon road was covered with hailstones half deep in a wagon." Most have been one of those tales that you read about in fairy tales.

Mr. Bryan's suggestion that Justice Harlan would be a suitable candidate for the presidency, though much in a vein of sarcasm, has some merit. That Justice Harlan is a Republican with Democratic principles does not matter; the principles count for more than the man. The great question about such a candidate lies in the fact that none Harlan, not fewer, are needed in the supreme court.
